1. We approved the minutes from March 12.
2. We discussed the question which was raised in EC about the number of upper division courses in the proposed Visual Arts Minor. David Barsky informed us that in Title 5.05.00 the minimum number of required units for a minor is specified. A minor needs at least a total of 12 units and at least 6 upper division units. The Visual Arts Minor has 9 upper division units and is therefore above the required minimum. There are also other minors at CSUSM with 9 upper division units.
3. We discussed the newly submitted syllabus for the course BIOL515. The UCC approved the course, but the UCC will inform the originator about the fact that the syllabus refers to the course as “an upper division, majors course” and that one sentence in the prerequisite section would fit very well into the learning objectives.
4. The UCC discussed the course proposal for ARABIC201. There is a mistake in the prerequisite section (ARABIC201 instead of ARABIC102) which will be corrected by David Barsky’s office and UCC will remind the originator that a course plan should give more information than just the units. UCC approved the course proposal.
5. The UCC discussed the course change for COMM495, but because the form asks for a cross listing with MASS495 and UCC has not seen the corresponding changes for MASS495 we will ask for a C2-Form for MASS495.
6. UCC approved the course change for LING305.
