## How to get access to your home disks when using cougarApps.

- 1- Open My Documents (or any App in question) in CougarApps.
- 2- Right click on the Citrix Receiver Icon in the system tray and choose About.
- 3- Expand Advanced and then click on "Connection Center".
- 4- In the Window that comes up, you will see an active connection with the label vdi-xa65-###. Click on that.
- 5- On the right side, you will see some drop downs inside of Session Security. You want to change the one labeled Files and USB/Other Devices to Full Access.
